

# DOLLAR DAYS BRING MERCHANDISE VALUES TO PORTERVILLE SHOPPERS

## FREE PARKING OFFERED FOR SALES EVENT

For three days — today, tomorrow and Saturday — you can keep your pennies and nickels in your pocket when you shop in Porterville, for during a Dollar Days special sales event, paper bags will hang over all parking meters in town.

This feature of the special, three-day sales event came through courtesy of the Porterville city council, members of which are lending their support to an effort of Porterville merchants to make Dollar Days a really worthwhile and economical event from the standpoint of the shopper.

Major stores up and down Main street are cooperating in the Dollar Days program by offering bargains in practically every line of merchandise. Placards "along the avenue" are announcing the event and special displays are featured in many stores.

Heading the merchant committee for the Porterville chamber of commerce in arranging Dollar Days is George Baker, who reports that a survey today has shown that "really outstanding values are being offered."

Special prices have been posted that are expected to draw thrifty shoppers from throughout Tulare county into Porterville today, Friday and Saturday.

## Marketing Assn. Reorganization To Be Discussed

"Reorganization of the Marketing Association" will be discussed by Bud Jackson, of the California Farm Bureau Marketing association at a meeting of the beef cattle department of the Tulare County Farm Bureau that will be held tomorrow, Friday evening, 7:30 o'clock, at the Farm Bureau office in Visalia.

Also slated to talk is Jamie Robertson, regional field secretary of the California Farm Bureau Federation, his subject to be, "Farm Bureau Issues for 1952."

New farm advisor, Maurice Hogan, will be introduced; Art Ogden, department chairman, will preside.

## 4-H SPONSOR DINNER NEXT TUESDAY NIGHT

Persons who have assisted with Tulare county's 4-H program will be honored next Tuesday evening at the annual Sponsors' dinner to be given by the 4-H Club Leaders' Council and 4-H members at the Porterville high school cafeteria, at 7:30 p.m.

Principal speakers will be Miss Lynn MacDonald, a former 4-H diamond all-star from Los Angeles county, who will discuss her experiences as an International Farm Youth Exchange delegate last summer in Scotland.

Persons desiring to attend the dinner, who have not received reservation cards, should make reservations with John Emo, at the farm advisor's office, P. O. Box 990, Visalia.

## Weather

Cloudy skies early this week brought only light showers Tuesday night in Porterville, followed by clearing skies and generally warm days. Although unsettled weather was predicted, the big wind from the north failed to blow.

# THE FARM TRIBUNE

VOL. V—NO. 35

PUBLISHED WEEKLY — PORTERVILLE, CALIFORNIA

Thursday, February 28, 1952

## FEED, PHOTO, JEWELRY STORES OPEN

Southeastern Tulare county's major trade center is continuing to expand with one new business opening officially this week and with two other businesses enlarging their operation in Porterville.

The new business — Orange Street Feed store, located at Orange and E streets — has announced its official opening Friday and Saturday, with 7,000 baby chicks to be given away Friday; 4,000 baby chicks Saturday.

The new store, managed by Lloyd C. Rider, who has had 13 years experience in this type of business in the Porterville district, is exclusive agent for Pillsbury feeds and also handles Jamesway poultry equipment, Lederle poultry and livestock products and buttermilk and milk feed supplements of the Consolidated Products company.

Field man for Pillsbury products is Coy Perkins; expected to be on hand for the official opening are Max Endicott, Los Angeles, sales manager for Pillsbury and Barney Dobes, hog specialist with the company.

The new store will handle all types of livestock and poultry feeds and will supply heavy breeds of baby chicks at all times.

Two established Porterville businesses are this week announcing the opening of branches in the Famous Department store building — Edwards Studio and Williams Jewelers.

The studio will feature all types of photo supplies and cameras, in (CONTINUED ON PAGE 2)

## ASPARAGUS COMING ON AS NEXT MAJOR CROP

Asparagus — next major crop in the southeastern Tulare county area — should be coming on in the near future, possibly in 10 days or two weeks, however, warm weather could bring the crop along sooner.

At the present time, tomatoes are going in under hot caps generally throughout the area; ground is being prepared for corn and along the foothills, some corn is already in. Other vegetable crops are also being planted.

## Fair Board Meeting Set For Thursday

Full-scale plans for Porterville's 1952 Livestock show and fair should start to move next Thursday evening, when directors will meet at Gang Sue's Tea Garden in Porterville at 7 p.m. with primary attention directed to construction of permanent buildings at the Porterville Municipal ball park. Dates for the fair this year are May 22, 23 and 24.

## Monache Farm Gilt Tops Bakersfield Sale

A Poland China gilt from the Monache Farm of Mr. and Mrs. Rolla Bishop, Porterville, topped the First Annual Kern District F.F.A. Bred Gilt sale held last Saturday at the Bakersfield high school farm, bringing \$150. Poland Chinas in the sale averaged a few cents under \$100; sale average was \$93. Chester Whites and Duross were also offered.

## Shorthorns Purchased By Local Cattlemen

Five head of registered Shorthorns were purchased by southeastern Tulare county residents at the recent California Shorthorn association sale in Sacramento.

Mrs. Esther Jones, Porterville, bought a heifer from McArthur Brothers, of McArthur, that is bred to the reserve champion bull of the Toronto International show and sale; Joe Menne, Ducor, bought two bulls and Raymond McTier, Saucelito district, bought two females.

New officers of the state association, elected at Sacramento, include: Tom Hawkins, Hollister, president; John McArthur, McArthur, vice president; Roy Woods, Piecines, secretary and C. F. Floyd, Acampo; Ed. Albaugh, Aven; Ralph Mehrten, Exeter; Ralph Jones, Porterville; Katherine Dumont, Solvang and Robert Cameron, North Sacramento, directors.

## "Heidi" Planned As Barn Theater Children's Show

"Heidi," a children's classic, will open Monday, March 3, for seven matinee performances at Porterville's Barn theatre under sponsorship of the Porterville branch of the American Association of University Women. The show will run on consecutive days after the opening, with the Sunday, March 9 show designed primarily for adults who wish to bring pre-school-age children.

Boasting an experienced cast, "Heidi" features Mary Ann Gaye in the title role. She took honors last year as Becky in "Tom Sawyer's Treasure Hunt" and the year before as the little dog, Toto, in "The Wizard of Oz." Clara, the crippled girl, will be portrayed by Patsy Beattie, who has appeared in "The Wizard of Oz", "Tom Sawyer's Treasure Hunt" and (Continued on Page 11)

## Community Pool Plan Being Revived

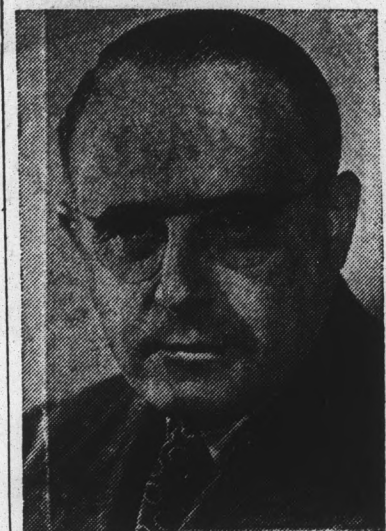

With announcement last week that the Orange Belt Saddle club will donate gate profits from the 1952 Porterville Roundup to a community swimming pool fund, interest in the proposed Porterville plunge is being revived, and Mrs. Marcus Jones, chairman of a pool committee, is asking all organizations that have raised money in the past for a pool, and organizations that are interested in such a project, send representatives to a public meeting that will be held in the Porterville city hall March 6 at 8 p.m. to discuss future activities in connection with a community pool.

## BAIRD FILES

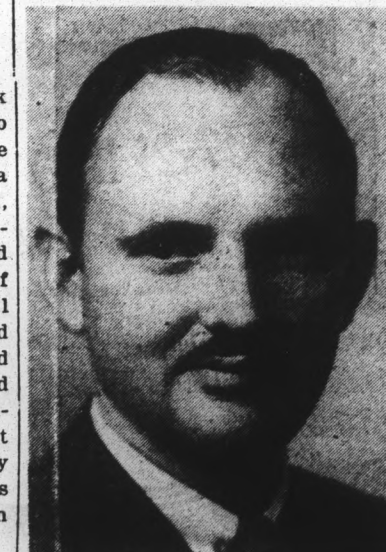

Justice of the Peace Donald B. Baird, Strathmore, has announced intentions to file for judge of the Lindsay Judicial District Justice court that will be set up after the first of next year through consolidation of the Lindsay and Strathmore justice courts and the Lindsay municipal court.

DR. H. C. HINSHAW, authority on diseases of the chest, who will speak today, Thursday, at 2:30 p.m. in the Martin Memorial building in Springville, at an informal conference on "Present-Day Problems of Tuberculosis Affecting the Community, the Hospital and Practitioners of Medicine." Dr. Hinshaw will address the Tulare County Medical society in Visalia, tonight.

DR. ALONZO L. BAKER, College of the Pacific professor, who will speak on "The Asiatic War Front," at the final adult forum at Porterville high school, next Monday evening, March 3 at 7:30 p.m. He is a specialist on international affairs and recently returned from Hawaii where he inspected navy installations and interviewed high-ranking military men.

AUBREY M. LUMLEY, JR., Porterville justice of the peace, who this week announced his candidacy for judge of the Porterville Judicial District court — the court that will be formed in January of next year through consolidation of Porterville, Ducor and part of existing Tipton justice court districts, and the present Porterville municipal court.

## INFECTED CATTLE CROSS U.S. BORDER

Possible danger to livestock of this area, and throughout the nation, is seen in the outbreak of hoof and mouth disease in Saskatchewan, Canada, reported this week.

F. R. Farnsworth, White River cattleman, returning yesterday from San Francisco, said that information obtained at the office of the California Cattlemen's association indicates that infected Canadian herds are near the U. S. border, and it is reported that a shipment of cattle from the infected district came into the United States as late as February 20.

A check is now being made in an effort to locate these cattle, however, little information on them has come up as yet.

As of now, the Canadian border is closed to livestock and certain meat products. It is stated that some 22 cattle herds are infected, in addition to some hogs and sheep.

Since the infected area is near the United States border, there is also danger of the disease spreading into the United States from wild game. It is believed that the Canadian outbreak came from livestock imported from Europe.

Cattlemen of California, and the western states, have watched with concern development of the hoof and mouth disease in Mexico, following a serious outbreak about three years ago. It appears that through efforts of the United States, the disease has been brought under control there, and the potential threat was never as great as now exists in Canada, since a desert area lays between infected Mexican cattle and the U. S. border.

Last actual epidemic of hoof and mouth disease in Tulare county was in the middle twenties, when great losses were sustained by cattlemen and other livestock men.

## POPPIES BRING BRIGHTNESS TO MAGNASITE HILL

California poppies, for the first time in several years, are bringing a splash of color to Magnasite hill east of Porterville (if you hadn't noticed, look up that way) to foreshadow probably the most colorful wildflower season in recent years.

Brodiaea are also blooming in many places, as well as smaller flowers. The foothills of Success valley, up toward the Indian reservation and in the Springville country should be taking on real color soon.

## Last Chance For Dog License

Since county health authorities report that less than half the dogs in the Porterville area have been licensed for the 1952 calendar year, a special dog vaccination and licensing clinic will be held at the Porterville fire station tomorrow, Friday, February 29, from 1 to 5 p.m. This will be the last opportunity for dog owners to obtain a license without paying a delinquent penalty fee of \$1.

addition to a five-hour service on photo finishing. A complete set-up for portrait work is also included; a credit system is available on goods and services offered.

Williams Jewelers will feature expert watch repair; nationally advertised silverware, watches, pens and pencils and other items, in addition to quality costume jewelry. The branch store will be operated by "the Williams family."

LLOYD LOWERY, Porterville, recently attended the fourth annual YMCA Youth and Government Model Legislature in Sacramento, as "assemblyman" from Tulare county.

## MOUNTAIN HOME PARK EXPANSION SOUGHT BY STATE

Expansion of Mountain Home state park, northeast of Springville, is being sought by the state of California, with arrangements now being completed to acquire 4,400 acres of federal land that almost surrounds the park in trade for some 23,000 acres of school land scattered over 21 counties.

The state commission and the United States Forest service are about ready to come to terms, according to State Forester DeWitt Nelson. The land that will be added to the Mountain Home park contains 43,380,000 feet of timber and 9,250,000 feet of Sequoias.

## WE THE PEOPLE

**A Tribute To Rev. J. A. Milligan**  
In this simple way, a tribute to a grand gentleman, who has left and gone away.

Ninety-one years young. For young in mind and heart, a marvelous person in all respects. Always optimistic; always cheerful and jolly. Alert, always, to add

to the comfort of his dear ones and his friends.

Never hesitating, no matter what the hour, to answer to the call of those who needed him. I know.

The world is richer for having had for 91 years in its midst, Rev. J. A. Milligan.

A FRIEND

### Frost Warnings

Spring frost warnings will be given over the following radio stations — KCOK, 8:30 p.m.; KFRE, 8:15 p.m. weekdays and 8:30 p.m. Saturdays and Sundays and KMJ, 8:30 p.m. Reports will originate in the weather bureau office in Lindsay, operated by Thomas R. Crossan.

### Keep Weeds Out Of Irrigated Pasture

Dollars of forage per acre may be saved if weeds are kept out of irrigated pasture, according to Farm Advisor Ralph Worrell who points out that weeds can be kept down by proper levelling of land before planting — levelling that cuts out high and low spots where only weeds will grow. He also urges that only certified seed be used and that fence lines, road edges and irrigation ditches be kept clean.

### Andy Morrison To New York

Andy Morrison, manager of the Porterville chamber of commerce, with Mrs. Morrison, left Porterville Monday, for a week's trip to New York city, where he will confer with business interests that may locate an industrial plant in Porterville.

DR. STANLEY B. FREEBORN has been named acting dean of the University of California college of agriculture at Davis, replacing Claude B. Hutchison, who has accepted an appointment with the state department to provide technical assistance with the "Point Four" program.

### Awards Offered

Three new awards will be offered this year to Tulare county 4-H club members — 4-H bread demonstrations, public speaking and 4-H entomology. Club members interested in these fields, and in some 28 other national award programs, can get full information from the office of the farm advisor, post office building, Visalia.

### VALLEY WINE

The 1951 vintage season in the four southern San Joaquin valley counties, Fresno, Kern, Madera and Tulare, yielded 84,345,000 gallons of wine, more than half of California's entire production. This is reported in the 16th Annual Wine Industry survey, prepared by Wine Institute for the Wine Advisory board.

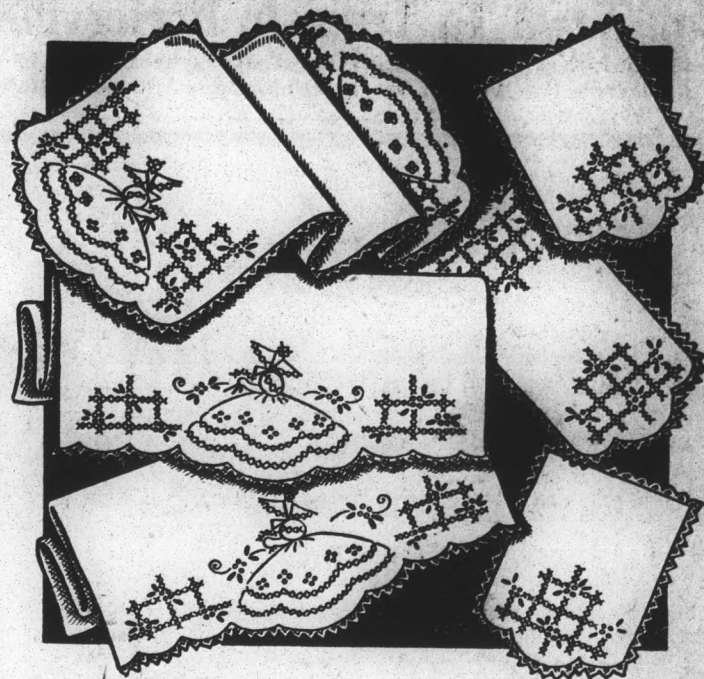

### BIDS ASKED

State department of public works has called for bids for construction of industrial shops and garages at the Porterville state hospital. The job will cost more than \$200,000.

### NEW CLUB

Newest 4-H club in Tulare county is being organized at Woodlake, with the Woodlake Farm Center as the sponsoring group.

## Ball Team To Train In Porterville

Lewiston, Idaho's, Class A baseball team from the Western International league is expected to move into Porterville about March

27 for a 20-day spring training season at the municipal ball park. The club, this year, purchased Spokane's league franchise.

In addition to watching workouts, local baseball fans will probably see the visitors in action against the Visalia Cubs, the Bakersfield Indians, the Tri-City Braves and Tacoma.

The club, known as the Broncos, has Bill Leuschel as its business manager.

## Delano-Earlimart Distribution System Cost Takes Jump

Increased cost of a distribution system — from \$8,537,000 to \$13,830,000 — is included in a new contract presented to directors of the Delano-Earlimart Irrigation district by the bureau of reclamation. If all rubber gasket pipes are used, the cost will go to \$14,509,000.

The new contract was prepared by the Bureau of Reclamation after it had been found that the original figure was too low. The proposed new contract will have to be voted on by residents of the district before it can be adopted.

## 4-H Club Plans Trip To Arden Plant

Plans for club members to visit the Arden dairy plant at Tipton were made at a meeting of the Success Valley 4-H club held last Thursday evening, and project reports were given by Bob Young, Linda Lea Waggoner and Darlene Aston.

Speaker was Farm Advisor John

One of the best year-around resolutions you can make would be to keep the family medicine cabinet stocked with basic items needed for family first aid.

Where there are children, you can generally count on bruises, falls, scratches, burns and minor illnesses. These can be met with calm, well-ordered action if you have on hand simple aids like a thermometer, an antiseptic, sterile cotton balls for applying it, and sterile bandages to cover any scratch or wound. For cuts or scrapes too large to be covered with a strip dressing, you'll need a package of sterile gauze pads which are individually-wrapped and ready-to-use bandages of fine surgical gauze. These neat squares can be taped over a wound to keep out dirt, foil chances of infection

and protect the wound from clothing. The individual glassine envelopes keep them sterile until you are ready to use them.

Also, check your cabinet supplies to see that they include a burn remedy, aromatic spirits of ammonia, witch hazel, boric acid, bicarbonate of soda and rubbing alcohol. You'll also find adhesive tape, roll gauze bandage, and patch and spot dressings handy.

Then, nearby but not in the cabinet, you may want to keep a basic first-aid book, a hot water bottle and an ice bag.

Things that have no place in a family first-aid center: unlabelled bottles, unrolled soiled bandage, old prescriptions. Include in your New Year's resolution a clause that you'll discard them.

Emo; refreshments were served at the close of the meeting.

## Store Interior Is Remodelled

Store interior at the Price-Hodgson company in Porterville has been extensively remodelled, with a new stairway constructed to the basement, a mezzanine completed for the display of chrome furniture and lamps; a new office built near the back of the store and window display space rearranged and modernized.

In addition, new fixtures are being placed in the store and an interior paint job has been completed.

## Sterling Ensign Heads Realtors

Sterling Ensign, Terra Bella, was last week installed as president of the Orange Belt Board of Realtors at a meeting of valley realtors held in Visalia. Other officers are: Roy A. Hill, vice president; Roy E. Bynum, secretary-treasurer and Harry J. Johnson, J. Dahle Frost and Allen G. Basye, directors, all of Porterville.

Insects and disease pests of vegetables will be reduced if the weeds around the intended plantings are destroyed before the plantings are made.

## Farm Bureau Livestock Market

VISALIA, Feb. 20 — Cattle: A small lot of choice 1220 lb. fed steers scored \$33.00, a few good kinds made \$31.00-\$31.00, commercial offerings ranged from \$27.40-\$28.35, utility grades made \$25.50-\$27.00. Good and low choice heifers secured \$30.00-\$32.25, commercial offerings \$27.70-\$29.60, utility grades \$22.50-\$25.00. Cannors and cutters \$17.00-\$22.00, "shells" downward to \$13.90. Commercial bulls made \$27.00-\$29.60, utility offerings scored \$25.10-\$26.00, cutters \$22.10-\$24.10. One load of fleshy 817 lb. feeder steers scored \$32.50, scattered lots of other good grades secured \$32.00-\$32.60. A package of choice stock heifers made \$33.40, common and medium stocker heifers secured \$24.60-\$28.00. Several small lots of common and medium grade stock cows brought \$19.00-\$20.40. Numerous cows with calf at side scored \$200.00 to \$300.00 per pair, several lots of medium quality pairs made \$225.00 to \$250.00 per pair. A few medium grade stocker bulls sold from \$27.00-\$31.00.

Calves: A few choice vealers made \$38.75, utility and commercial offerings ranged from \$27.00 to \$33.00, good grades scored \$35.00-\$37.50, culls were down to \$24.00 or lower. Good and choice slaughter calves secured \$34.00-\$36.50, utility and commercial kinds \$26.00-\$33.00. Good and choice mixed stock calves brought \$35.00-\$39.75, a few choice offerings under 250 lbs. made \$40.00-\$42.25, common and medium grades scored mostly \$23.50-\$33.15, plain dairy types were down to \$20.00 or below.

The hog marketings at the Visalia Farm Bureau hog auction, February 18 totaled 151 head compared with 94 head last week. Butcher classes were strong to 15c higher, sows looked steady to strong. The bulk of the choice 197 to 245 lb. barrows and gilts made \$19.65 to \$19.85, the latter price was the top. Choice 340 to 570 lb. sows secured \$14.00 to \$15.55. One package of good and choice 85 lb. feeder pigs scored \$18.55.

### Frazier Valley Road To Be Resurfaced

Frazier valley road, considerably roughed up as a result of rain and cold weather during the winter months, will be resurfaced by the contractor during the spring under the original construction contract, according to Supervisor Rodgers L. Moore.

### Pest Control Study

At the request of the Strawberry Council of California, the University of California college of agriculture is making an intensive study of the cyclamen mite, the major pest of strawberries in California coastal areas, with hopes of figuring out control methods.

## Political Candidates File In March

Tempo of local politics should begin to pick up as filing date for candidates entering the June primary approaches — March 5 to 29.

Four major offices that concern the southeastern Tulare county area in which an election is slated for this year are: Supervisor from the first district; California state assemblyman; United States congressman and United States Senator.

In the supervisorial district, that includes Lindsay and Porterville, the term of Rodgers L. Moore, chairman of the Tulare county board of supervisors expires this year and it can be expected that Mr. Moore will make a formal announcement of his candidacy for reelection within the next few weeks.

The incumbent state assembly-

man from Tulare-Kings county district, Harlan Hagen of Hanford, will not be a candidate for reelection, choosing instead to run for state senate, seeking the Kings county senatorial post now held by Roy Cunningham, who is not a candidate for reelection.

This leaves the assembly race wide open, with no announced Democratic or Republican candidate in the field as yet.

Term of United States congressman, Tom Werdel, of Bakersfield, also expires this year and it is expected that Mr. Werdel will be a candidate for reelection from the district that includes Tulare, Kings and Kern counties.

Incumbent United States senator, Bill Knowland, of Oakland, will also be a candidate for reelection.

## Infra-Red Brooding Is Popular With Poultrymen

With infra-red brooding becoming increasingly popular among commercial poultrymen, Farm Advisor William F. Rooney reports that a research experiment conducted for the University of California by Wilbur O. Wilson and Leroy C. Kleist has shown both advantages and disadvantages in the new brooding method.

Advantages of infra-red brooding include the installation of the infra-red brooder which is much lower than the cost of installing the more conventional type brooder. Also, birds under infra-red lamps have less tendency to pile up and at all times are readily visible. Many growers would consider these as major points in favor of infra-red brooding, Mr. Rooney says.

Disadvantage of this type of brooding is the cost of operation.

It was found that the cost electricity used to operate the lamps definitely exceeded that used to operate the conventional brooder. Mr. Rooney suggests that precautions be taken to prevent such heating lamps falling on the litter as fire may result.

It was also noted that in spite of the higher cost of operation, commercial growers can not expect to find any difference in the rate of gain, mortality or feathering of their birds.

Both research specialists agreed that infra-red brooding would become even more popular among commercial growers if the cost of operation were lower.

## NEW OPERATORS TAKE OVER ROAD SURFACE PLANT

The Del R. Beebe Construction company, of Eugene, Oregon, and Ray Oiseh, of Porterville, have taken over operation of the Mid-Valley Corporation plant and equipment for manufacturing asphalt and road surfacing materials.

The plant, formerly operated by Emerson Button, Harold Derfelt and Ralph Offutt, is located just south of Olive street about four miles west of Porterville.

Have you noticed that egg prices are lower? Considering the weight and average price of large, medium, and small eggs of the same grade large eggs are the best buy.

## PORTERVILLE ENTERPRISE February 27, 1891

### Pleasant Valley Pickings

The stockholders of the White Chief mine informed your correspondent that they have discovered a good paying lead of gold quartz in Cow mountain, but owing to the want of capital, will close the mine for the summer, but will return this fall and put in a plant for reducing the ore.

The farmers of Pleasant Valley are more than delighted with the late rains. On Monday when the Tule river was at its highest, two of J. L. Hoover's cows got into the river and came near getting drowned.

J. W. Bursell deserves considerable praise as a postmaster, as he always greets you with a hearty good day and a pleasant smile.

### Springville

Rain commenced here at 3 p.m. last Saturday and still she pours, three and a half inches having fallen up to the time of this writing — Wednesday.

A. J. Doty has returned home from his labors on Doyle's Middle Tule trail.

Tomorrow will be old folks' night at Springville. Come and pay them a visit.

### Porterville

Fifty dollars expended on the cutting of gullies or trenches on each side of Main street and extending from Cleveland street to the Porter slough for the purpose of draining the streets of rain water would so enhance the comfort and appearance of the town that our property owners are either too stingy or careless to even think of such a thing. We have so often called attention to the disgraceful spectacle of our streets, after a heavy rain, with no result, that we should not refer to the subject again. At the same time, we think that for their own credit's sake, those capitalists who are drawing big revenues from the property they hold in Porterville would have the common decency to try and keep their particular places in proper order and not leave such matters to the tenants, who, goodness knows, pay sufficient rents without having to plank down the coin for the repairing of their landlord's bullion sacks.

Station Agent Murphy informs us that dating from March 3, special round trip tickets will be issued from Porterville to Los Angeles for \$11.80 in order to give our citizens an opportunity to visit the Southern Citrus Fair.

Prof. Ferguson, of Boston, Mass., the greatest of all specialty artists and violinists, will give his wonderful and matchless performances at the following places: Frazier valley, Orange school, Springville, Cramer, Milo hall, Fountain Springs and Tailholt.

Monday's windstorm played rolling pins at Dan Abbott's ranch on Deer Creek, blowing down an outhouse and seriously damaging a windmill.

Mumps has been running rampant among the children of our school the past couple of weeks.

Ogden Bolton, the purchaser of the Boucher - Springer - Mitchell properties, left Porterville this morning on a month's visit to the east.

The fire bug is still lurking in the vicinity of Porterville and came very near getting in his work last week. It appears that some rascals fired with incendiary, proceeded to the old frame house on west Mill street, formerly occupied by Dr. Whitlock, on the night of the 19th, and placing a pile of straw on the floor through the medium of a broken window, ignited the same and dis-

appeared. But the floor was so damp from the fact that Hockett's ditch runs under it, that after burning a small hole in the boards, the fire fortunately became extinguished.

A. G. Schulz is building a work shed at the rear of his store in the Hatton block, which will be covered with corrugated iron roofing.

Dave Vaughn is erecting one and a half miles of three-strand barbed wire fence on his Deer Creek ranch.

Fresh bread and fine eastern oysters always on hand at Fred Ackerman's bakery.

Mrs. Dora Richards does every kind of mending and repairing for gentlemen. Take your torn garments to her in the Mapes building.

## THE FARM TRIBUNE February 20, 1948

Construction work on the Friant-Kern canal is expected to be in full swing within 10 days or two weeks. Work on the project was suspended in December of last year when the bureau of reclamation ran out of funds.

Neil Carpenter, son of the L. N. Carpenters, received a registered Poland China gilt at a meeting of 4-H club members and leaders held recently at the Barns-Wick ranch southeast of Porterville.

Asparagus from this area will probably start moving into market channels about the first of March.

An initial survey as to present and possible future needs of the proposed Sierra View District hospital is this week being made by Richard J. Stull, western representative of James A. Hamilton and Associates, hospital consultants.

Results from a grain sorghum variety trial conducted last season in the Seville area have shown Double Dwarf Milo 38 to be the highest yielding of the six varieties tested.

## Camphor, Peppermint Recommended For Stain Removal

By Clara E. Cowgill  
Home Advisor

Use spirits of camphor or essence of peppermint to remove the discolored spots caused by water on varnished furniture surfaces.

Varnished surfaces will often develop white spots or a scum caused by dampness. Remove such defects by rubbing the surface lightly with a piece of flannel dampened with spirits of camphor or essence of peppermint. Let it stand for a few minutes, then apply furniture polish. A drop or two of ammonia on a damp cloth will also do the job.

If this treatment does not remove the spots, it will probably be necessary to refinish the furniture completely.

## THRIP CONTROL NECESSARY ON YOUNG CITRUS

By Karl W. Opitz, Farm Advisor

Citrus nurserymen and growers having young trees should begin spraying for citrus thrips as soon as these insects are evident. It is very important that the new growth be protected from thrip injury. As many treatments as is necessary should be applied throughout the growing season.

Nursery trees that require close attention to suckering, weed control, staking, and tying may be treated with Sabadilla (Thrip Tox) without danger to those working on the trees. For the best results with Sabadilla, it should be applied during warm, dry weather.

In the event that unfavorable weather prevails when the first thrips appear, nicotine should be used at the rate of 1 quart of nicotine sulfate or 7 pounds of black-leaf 155 with 4 pounds of sugar in 100 gallons of water. This should be followed with Sabadilla when the thrips again appear. Sabadilla is used at the rate of 1 to 1½ gallons per acre in from 100 to 200 gallons of water. Sugar should be added at a minimum of 5 pounds for each 100 gallons of water used.

The less cutting down on olive trees that are to be grafted the easier it will be to insert the scions early in the season. If limbs must be cut several weeks prior to grafting, stubs should be at least 4 feet beyond where the final cut will be made.

## Monache Sausages

By  
LORETTA and ROLLA BISHOP

Entertaining?

Want something different?  
We've got it!

What we're talking about are those little Monache sausages, especially made sausages that just fit on the end of a toothpick and look so smart and appetizing. They're just the thing to give the unusual touch to those before-dinner snacks, and how your guests will go for them! And you too. We'll guarantee it. But let us know in advance how many you need; we have to make them on order.

But maybe you want a main course. Then try a boned Monache pork roast, rolled and tied and ready for the oven. Season just as you like it; cook slowly and long enough; then enjoy its delicious flavor. And it's more than just good; it's economical too. You'll be surprised how far a boned Monache roast will go when you entertain guests, or when you are just feeding your own family.

What's that you say? You're chairman of your club committee to feed 25, 100, 200 or 300 people. Don't worry one bit; give us a call out here at Monache Farm. We'll help you decide on the cuts you need; on how much meat it will take; on how to prepare your Monache Pork so that you get all the goodness out of it.

All of which means that if you are entertaining a few friends, or a few hundred, Monache Pork — that good pork from clean, grain-fed hogs — will make the difference between a meal and a really sumptuous meal.

And just to prove that we farmers know what's going on in town, the Monache Sausage Kitchen is offering a Dollar Days special. It's one and a half pounds of bulk Monache sausage, and you get it for just \$1. That's for Saturday only, so drop out to Mulberry and Prospect and turn in at the Monache sign. And don't forget, a phone call — 168-W — will bring a free delivery right to your door in Porterville on any Tuesday or Friday.

Now is a good time to clean up your crown gall — it's called crown gall but can be present higher in the tree. Control is simple — paint the galls with one part Elgetol plus four parts wood alcohol.

## PAY PHONE RATE IS UPPED TO 10 CENTS

Beginning Friday, March 21, public telephone users throughout California will deposit one dime or two nickles in the coin slots to make a local telephone call.

On the same day the three percent surcharges on monthly bills of regular telephone subscribers will be eliminated.

The surcharge was designed to avoid a higher permanent increase in exchange rates and was necessary to procure the revenue needed while the 70,000 public telephones in the state were being modified to 10 cent operations.

Bob Board, Manager of the Telephone company in Porterville said that the equipment changes had been expedited in order that the 3 per cent surcharge could be dropped as soon as possible. As a result, the change is being made about three months ahead of the eight month period allowed in the California Public Utilities commission order of last October.

## The FARM ADVISOR Says . . .

Contact weed control with the use of oil should be aimed to the very small weeds when they are easier to kill. Don't wait until the weeds get a good start before the control program is begun.

4-H vegetable growers should concentrate their efforts on one vegetable crop rather than several vegetable crops. We suggest either potatoes, tomatoes, or sweet corn as the project for the first year.

Trees and shrubs planted in the home garden should be carefully placed with reference to their sunlight requirements. Don't plant sunloving plants in the shade.

Butterfat production per cow in California is 289 pounds, as compared to 415 pounds for those cows in Dairy Herd Improvement associations.

Eggs show more blood spots at this time of year. Candling is thus of added importance now.

Cotton fertilizer for this season should be ordered as soon as possible to insure an available supply when the grower wants to fertilize the cotton.

Bare root olive trees should be planted as soon as possible. Late planted bare root trees do not start well and are very subject to sunburn.

Citrus growers should recognize that next to irrigation pest control is the most important thing to do. Money spent for timely pest control measures is well invested.

Harding grass has proved its value for winter feed in irrigated pastures. One pound of seed per acre is sufficient in seed mixtures.

## We Only Heard

By BILL RODGERS

**NORTHWESTERS ARE good.** If you haven't tried this new type of meat-bird, better do it, even if only to satisfy your curiosity, since you will be hearing more and more about the Northwest. Actually, the bird that combines chicken and pheasant, has a sweeter-than-chicken taste, tempered by just a shade of the wild pheasant flavor; the meat is firm; there's white meat on the drumsticks and the breasts are really broad. It's actually quite a bird for eatin' purposes.

TO GET this matter of a proposed \$85 billion federal budget a little closer to home, the California Taxpayers' association has figured out that if adopted on a pay-as-you-go basis, the budget would cost Tulare county \$93,336,000, or, still closer to home, about \$630 for every one of the county's 148,200 persons. California's share of such a budget would run something over \$7 billion. Or to compare further, the federal budget would cost Tulare county about eight times as much as its own county's budget and it would cost California well over eight times as much as the state budget.

ANY HOPE that some sort of compromise might be reached concerning the condemnation action of the Porterville Veterans' Memorial district against Sinarle property on Olive street seems to have vanished and it would now appear that the case will go into court April 23 as scheduled. Apparently the hard-headed and vindictive attitude of the Memorial board still prevails, in spite of strong public expressions of opinion opposing this condemnation of property for a veterans' memorial building . . . How we would like to see a public vote on the single and simple question, "Shall the Porterville Veterans' Memorial district condemn property as a site for a veterans' memorial building." Our bet is that one would be voted down in a hurry, because we believe that people still generally appreciate the difference between moral right and wrong . . . But don't worry. There's no possibility of such a vote as long as the present board is in office.

GEORGE OVERCASH, owner of the Porterville Farm Implement company, received an eight-year recognition plaque from the J. I. Case company at a dealers' convention in Fresno last week. Eighty-three awards were made in the Oakland branch area covering California, Arizona and most of Nevada. Approximately 150 persons attended the convention.

# FISH FOR FEATHERS

By Phil The Forester

At this special session of the state legislature the idea is being bandied around to raise the fishing and hunting license fee to \$5 each. The fish and game budget being considered calls for the expenditure of almost a million and a half dollars over anticipated income. Part of the extraordinary expense is chargeable to reorganization plans for the newly created department of fish and game.

I was contacted by phone from the capitol as to what the sportsmen in central California would think of the raise idea and I had to say I didn't believe they would be very happy.

There is a fish and game fund surplus of about six million dollars so it would be my idea to dip into that for the present, allowing more time to feel out the public on a proposed license increase. The cost of doing fish and game business has skyrocketed along with cost trends.

## A GOOD EXAMPLE

A good example of this is the proposed San Joaquin River Trout hatchery estimated in 1949 to cost \$260,000 but now believed will come closer to three quarters of a million to construct.

No doubt the subject will be dropped until the next regular session of the legislature.

In the meantime, what do the sportsmen think of a trout stamp, an increase in deer tags, an increase in pheasant tags, etc., in lieu of a general increase? The idea being to let the people who fish and hunt pay their own way so to speak. The catfisherman

## Stripe It Rich

Rayon taffeta in vibrant stripes adds a look of elegance to this simply styled dress by Fashion Frocks of Cincinnati. In red or toast stripes with champagne colored Bengaline collar and flaring cuffs.

wouldn't have to share the expensive "put and take" catchable size trout program and the hunter who don't care about pheasants for instance wouldn't be taxed for the costly "under the gun" liberation of pen raised game from farm birds.

## FISHERIES CHIEF TO RETIRE

A. C. Taft, chief of the bureau of fish conservation, department of fish and game has announced his intent to retire. The chief's first plan calls for a take off to Paris and European waypoints by May 1, to go fishing no doubt.

Frogging will be legal starting March 1 with a bag limit of 24 allowed. Under new regulations the size limit has been removed but no frog shooting will be permitted.

Last day of February is not only the last day of the coastal steelhead and salmon season but also ends the season on black bass, sunfish, crappie and bluegill in all counties north of Mono, Madera, Fresno, San Benito, Santa Clara and Santa Cruz counties except a few reservoirs which will hereafter remain open year 'round.

Striped bass fishing in the bay area has been slow but ocean salmon fishing has been producing very good results.

A letter from the Santa Cruz Stagnaro family informs us March 1 will be the official opening day for the famous deep sea fishing trips in the area, weather and tidal conditions permitting. First boat is scheduled to start at 6:30 a.m.

Sequoia lake in the Sierra National forest is entirely surrounded by private property but through a cooperative agreement is open to public fishing during most of the trout season. In return for the open access privilege the department of fish and game

keeps the lake stocked with trout. The legal land owner is the Sequoia Lake Conference of YMCAs.

By mutual agreement with the owner, organized sportsmen and the department of fish and game, the lake was chemically treated in 1947 and all rough fish of which there was an over-abundance, were removed. Following this clean-up project, the lake was planted with 25,000 fingerling rainbow trout and has received a similar plant each year since.

Sequoia Lake was thus developed into one of our better readily accessible trout fishing areas providing a high yield of big trout for the angling effort.

## UNLAWFUL SUNFISH PLANT

Last year, some unauthorized individual illegally planted Sequoia Lake with little green sunfish, a quick multiplying and precocious fish often mistaken for bluegills.

The game law violator may have intended to be the good Samaritan by hoping to provide more fish for the fisherman or perhaps he was just a natural trout hater. Very likely many more little green sunfish than trout could eventually be provided for the fishermen if that is what they want.

Sunfish are so prolific that they often take over a body of water entirely and crowd it with so many fish they lack growing space and sufficient food and thus become very undesirable stunted specimens.

But after due consideration and inquiry, the department of fish and game reached the conclusion that what the most people want out of Sequoia is the continued good trout fishing, not little green sunfish. As a result the usual trout planting practice will be followed again this year and a close watch maintained on fishing results.

If, as expected, it is discovered that the two species can not live in the same house, the lake will again be chemically treated after

## Pleasant View 4-H Club Reports Heard

By Ronald Santry

Pleasant View 4-H held its regular meeting the evening of February 18, with Delores Hutchinson, president, presiding. A large attendance turned out. Reports on projects were given by Richard Callison, Linda Hutchinson, Ronald Santry, and Brenda Santry. They were assisted by Frank Fruit.

Laron Hoggas reported on the success of the snow party recently held at Lodgepole. All members turned out including the parents. Patty Callison gave a review of the 4-H Dress Show, which she participated in, and which was held in Tulare last month.

After the meeting was over, games were played and refreshments of cup cakes, cookies and hot chocolates were served.

the season and the trout program will begin all over again.

## BLACK BASS BITING

Word has just been received that the Millerton Lake black bass have taken a turn at striking the angler's lure the last few days with some nice two to four pounders being taken.

One of our Monterey resident fishing friends writes that steelhead have been running great in the Carmel river.

The season on coastal steelhead and salmon fishing will close February 29 and not the 28th as stated in the regulation extract in possession of most sportsmen.

# SPRINGVILLE NEWS

By Winnie Gage

By Winnie Gage

A 7 pound daughter was born February 25 to Mr. and Mrs. Walter McNab at the Porterville hospital. She has been named Deborah Lynn.

Visiting Mr. and Mrs. Jack Sanders over the weekend was Mr. and Mrs. L. R. Wilson and Mrs. Wilson's brother, Milton, of Sacramento.

Mr. and Mrs. C. G. Gregg spent the weekend in and around Sacramento visiting various turkey farms. They also visited Mr. and Mrs. Henry Miller of Auburn, who were formerly from Springville.

A group of junior boys and girls of the Nazarene Church attended a party at the home of Rev. and Mrs. Harold Beason. Games were played and home-made ice cream and cake was served and on Saturday a group of teen-agers went to the snow at Lodge Pole. They were accompanied by Rev. and Mrs. Beason and John Willbanks of Porterville.

Dory Ann Killian Swett, daughter of Mr. and Mrs. Rolland Killian, started skiing again for the first time in three years, at a ski run near San Bernardino.

At the time she was on the Sun Valley, Utah, ski team she was rated one of the top ten women skiers in the United States. She has long been active in winter sports, having been state figure skating champion before she started skiing.

In the past few weeks she has won the following: Carnival cup at Snow Valley; Southern California Class A combined championship Slalom and downhill; Southern California Giant Slalom championship; Southern California Double Giant Slalom, and has received beautiful trophies.

Racing is getting in the Swett family. Dory Ann's husband, Paul, who has long been a skier, has now entered in racing and doing fine.

Pfc. Doyle Clinkenbeard of Camp Pendleton visited his parents over the weekend. He was accompanied home by a buddy, Donald, of New York, and Ralph Conklin and Ralph's father of Denver, Colo., who was visiting Ralph over the weekend. The boys are to be sent overseas soon.

The ladies of the Grange Home Economics are making pajamas for the children at the sanitarium.

Mary Ellen Snively, daughter of Mr. and Mrs. Frank Snively and J. C. Bayless, son of Mr. and Mrs. Cleo Bayless of Hanford were married Friday evening, Feb. 22 at the Re-organized Church of Jesus Christ of Latter Day Saints in Tulare.

The bride's father, Frank Snively, performed a double ring ceremony in the presence of one hundred fifty guests.

Music was provided by Mrs. Charles Cary of Visalia, organist, and Miss Betty Stewart, soloist, of Visalia, sang "The Lord's Prayer" and "God Gave Me You."

The bride wore a gown of white crepe and lace, a finger-tip length veil of white net held by a white satin Dutch cape. Her flowers were gardenias and roses on a white Bible.

Miss Alice Snively was her sister's maid of honor. She wore a gown of aqua taffeta and lace and carried a nosegay of sweetpeas and daffodils.

Willard Bayless, brother of the groom, was best man. Ushers were Frank E. Snively, the bride's brother and Jim Damrun.

The bride attended Tulare High School and was graduated in the class of 1945. She is employed in the Tulare County auditor's office in Visalia.

The groom was graduated from

## New Recipe: Whiter Clothes from an Automatic Washer with Half the Soap

Homemakers find that automatic washers will get clothes whiter with one-half the soap where clothes and the water are properly conditioned. A new discovery is that clothes should be "conditioned" before the homemaker puts her new automatic machine into service. The efficiency of soaps and detergents is sometimes questioned where clothes do not come out white and fluffy, but frequently the fault is with the water. This can be corrected, according to a report made at a recent national home laundry conference.

Hotpoint home economists said that where local water has a high calcium and iron content, it does not completely dissolve soap or

detergents in any washer. Clothes become loaded with undissolved soap curds and do not come out white and fluffy. As a remedy, they reported a recipe which includes an arrangement by which a packaged water softener is supplied with its new machines, with a suggestion that it be used to condition the clothes before laundering is done. This "clothes conditioning" recipe is to be used before the new machine goes into service: Just place the clothes in the washer, add the required hot water for washing, then the water softener (this amount based on chart below): no soap or detergent. Then the machine should be dialed to go through its regular cycles.

Following "conditioning," the clothes are again washed; this time with soap and softener added. Further tests showed that the dull and grey condition did not return where water softener was used each time clothes were washed. Clothes colors were lightened or brightened, and their fluffiness increased.

The recipe distributed by Hotpoint with each new washer suggests these steps:

San Pedro High School in 1944 and is employed in Safeway stores in Corcoran.

A reception was held in the Grange Hall which was decorated in yellow and green. The three tier wedding cake was cut by Mrs. Don Baker of Modesto. Ice cream was served by the Mesdames Walter Snively, Visalia; Ben Danrum, Tulare and Donald Manuel of Berkeley. Mrs. Neil Kent of Visalia was in charge of the guest book and Mrs. Willard Bayless had charge of gifts.

Mrs. Frank Snively wore a gown of wine color and a yellow carnation corsage. and Mrs. Cleo Bayless wore a teal blue gown with a corsage of pink carnations. After a honeymoon on the coast the couple will be at home at 1016 E. Mineral King, Visalia.

The Lions club sponsored a

1. Learn from your local water company the degree of "water hardness." This comes by grain per gallon and may range from 1 to 25.

Water Hardness (grains per gallon)	1	2	3	4	5	10	15	20	25
Softener per full load									
Heaping teaspoons	2	4	6	8	10	—	—	—	—
Heaping tablespoons	—	—	2	—	3	6	10	13	16
Cups	—	—	—	—	1/2	3/4	1 1/2	1 3/4	2 1/2

2. After you have completed the "clothes conditioning" process described, for each batch of clothes, reduce the amount of soap you used to one-half the usual amount for future washings.

3. Keep a record during the early periods of this process for future reference.

4. If too much or not enough suds develop from one-half the usual amount of soap, reduce or increase the dosage.

For Heavy Soil or Extra Hard Water

5. Follow the procedure used above up to the start of the deep rinse. As the water enters the washer for the deep rinse, raise the lid and add softener directly to the tub. Use the dosage specified in the table for a full load or half the dosage for half load.

The Hotpoint findings urge that care should be taken that too much soap is not used. In addition to the soap saving, this reduces both the washing and rinsing action. Clothes should be placed in the tub while it is filling. Do not overload the machine: this dislocates the efficiency of the soap or detergent as well as the machine itself.

These studies have shown that a water softener is especially beneficial to fleecy blankets, and other woollens, as they are usually susceptible to soap film or particles of unused soap. The fluffiness in blankets is restored even after repeated washings in hard water where a water softener is used.

## Earlimart Vote

Residents of the Earlimart Elementary School district will go to the polls March 25 to vote on acceptance of a state apportionment of \$515,000 and a bond issue of \$57,000, also on a tax increase from 90 cents to \$1.65 for a period of five years.

## FESTIVAL

Seventh annual Wine and Harvest Festival in Delano will be held this year on October 3, 4 and 5. Jim Owen has been named president of the Wine and Harvest Festival association.

Boy Scout dance Saturday night, which was well attended and netted the boys about \$75.00. Miss Allan of Visalia was organizer.

POWER POINTER

for kite flying fun— and safety—follow the rules!

There are very few sports which can be enjoyed with as little equipment as kite flying. That's probably one reason it has been so popular with young and old for thousands of years. Even the rules are simple, but they're very important! You'll have a lot more fun if you remember them:

1. Fly kites in an open field, away from electric power lines and other overhead obstructions.
2. Be sure the string is perfectly dry.
3. Never use wire, tinsel or metallic string.
4. If the kite catches in a power line, let go immediately. Don't pull! Phone the company owning the line and a lineman will get your kite for you.

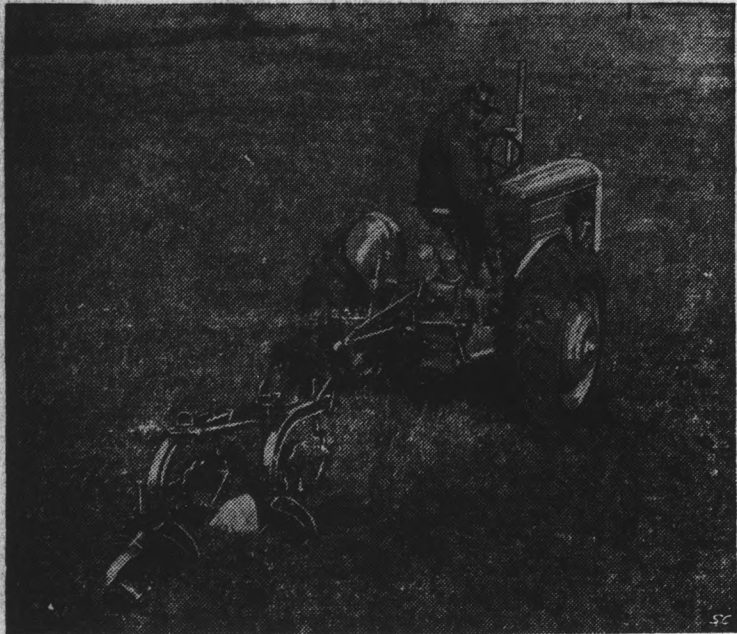

SOUTHERN CALIFORNIA EDISON COMPANY

**Orange Market Varies**

The market for southern California navel oranges continued strong on large sizes, steady on medium sizes and lower on small

sizes during the week ending February 23. Sales were slightly less than those of the previous week because of the Washington birthday holiday and the f.o.b. average was a few cents per box lower.

**Lets Loose When It Hits Stone**

Damage to plows by stumps and stones is pretty well prevented with a new Break-Away plow developed by engineers of the J. I. Case Co. Because tractor-mounted plows are poorly suited to ordinary release hitches, the Break-Away plow itself separates when it strikes stump or stone, leaving its fore-frame still mounted on Eagle Hitch of the Case Tractor. It is automatically recoupled by backing the tractor.

The Break-Away plow can be used with "economy bottoms" that have low-cost disposable shares which are simply replaced when dull—rather than requiring trip to the blacksmith shop.

**Justice, Constable Pay Raise Approved**

A revised pay scale for constables and justices in Tulare county, effective next year, January 5, has been approved by the Tulare county board of supervisors, with justices of the peace to receive from \$300 to \$650 per month and constables from \$300 to \$350. Constables must devote full time to their duties.

**Electronic Device Takes Iron Out Of Hay**

An electronic detector-reflector to remove iron from chopped hay is being developed at the University of California at Davis by John Dobie and Fred Jacob of the agricultural engineering staff.

Heavy losses of cows due to hardware sickness emphasize the importance of removing tramp iron from grain and feed. Short pieces of iron wire and nails, which may penetrate the walls of the cow's stomach, are held chiefly responsible.

**Concrete Poured For Springville Bridge**

Concrete was poured Friday on the Circle road bridge across the Tule river below Springville, with other work continuing now on the bridge.

The Farm Tribune was declared a Newspaper of General Circulation on January 10, 1949, by judgment of the Superior Court of the State of California, in and for the County of Tulare.

**HENDERSON ROAD SHOULD BE OPENED IN VIEW OF COMMUNITY DEVELOPMENT**

Extension of Henderson road toward the east, to tie in at Sunnyside, 65 highway and Cypress, is an improvement that should be delayed no longer.

Development of the rural area northwest of Porterville and development of the north city area already accomplished, plus indication of continued development, make extension of Henderson a logical project, since at present there is no through street or road between Belleview and Mulberry, a distance of about a mile.

In ordinary circumstances, extension or improvement of a road can be accomplished without undue trouble, however, in the case of Henderson, a railroad crossing is involved, which in turn involves the state securities commission, a group that has indicated that if a crossing is to be placed on Henderson, some existing crossing must be closed — with Belleview suggested.

But the problem involved here is not one of closing crossings, it is one of opening a new crossing to serve both the city of Porterville and the rural area. The Henderson project can stand on its own merit and should be pushed as such. There should be no backtracking in the form of trades.

Already the Porterville chamber of commerce, the city planning commission and the city of Porterville are on record opposing any trade. We would like to see other organizations do likewise.

Henderson road can be extended without involving any trade provided enough opinion is expressed in favor of the needed extension. It behooves this community, both rural and city, to see that this opinion is expressed in the proper places and that the Henderson project is not allowed to fade out again as it has on several occasions during the past 30 years.

**NOTICE TO BIDDERS**

Notice is hereby given that the Terra Bella Irrigation district has for sale approximately 600 acres, more or less, to be sold in parcels ranging in size from 10 to 100 acres.

Sealed bids, accompanied by 10 per cent of the amount bid, will be received on any one, or more, of these parcels, said bids to be opened on Tuesday, March 4, 1952, at the hour of 10 A.M.

Anyone interested may call at the office of the Terra Bella Irrigation district on Terra Bella boulevard and a representative of the district will provide all information regarding property, and, if desired, show the property to the prospective buyer.

Sale of parcels will go to the highest bidder, with the board of directors reserving the right to reject any and all bids or offers.

All of the land offered for sale includes full water rights with a firm supply furnished by the district and from the Friant-Kern canal.

HOWARD McNEILL, Chairman, Board of Directors  
Terra Bella Irrigation District f21,28

**Center Chairman**

## "Heidi" At Barn

(Continued from Page 1)

"Alice In Wonderland."

A newcomer to the Barn is young Bruce Kemper, who will be seen in the role of Peter, the goatherd. Dale Clark, who has appeared in "The Wizard of Oz," "Alice in Wonderland" and "Belvedere," completes the children's parts. Marlene Easton, who played in "Alice in Wonderland" acts this time as the maid in Clara's home.

Adult roles feature Elfrieda Allen as Dete, Heidi's acid aunt; Alice Allumbaugh as the deaf grandmother of Peter; Esther Weisenberger as Brigatta, Peter's mother; Cash Davis as the minister from Dorfl; Lucille Price as the wealthy Madame Sesman, Clara's grandmother; Ken Ford as Clara's father; Marguerite Davis as the nasty governess, and Barn Director Pete Tewksbury as the aged and gruff Alm Uncle, Heidi's grandfather.

Betty Pearson has designed and painted the set for the three scenes.

## REPUBLICAN GROUP NAMES NEW OFFICERS

Mrs. Burke Burford was elected president of the Southern Tulare County Young Republicans at a meeting held Tuesday evening at the Al Konda residence in Porterville; Mr. Konda was named secretary-treasurer of the organization.

Named as an executive committee were: Mesdames D. C. Pearson, Al Margo and Mac Williams and Messrs. Frank Sheldon, Dick Giddings, Howard Brittell and Burke Burford.

On a special committee to secure a permanent headquarters for the club are: Mike Middleton, Barney Richardson, Mr. Sheldon and Mrs. Burford.

The Young Republican group, which will seek members from throughout southern Tulare county, will now apply for an organization charter from the California Young Republicans. Object of the organization is to work politically for Republican candidates and principles.

## Heard Heads Burton Farm Bureau Center

W. G. Heard has been elected chairman of the Burton Farm Bureau Center; V. L. Crabtree is vice chairman. Speaker at a recent meeting of the Burton Center was Roy McLain, vice president of the California Farm Bureau Federation.

## Porterville Pump Shop Incorporated

After 30 years of serving the agricultural areas of Tulare county, the Porterville Pump shop has been incorporated according to approval just granted by the secretary of state, state of California.

In accordance with the new policy of the corporation the pump shop is securing new equipment and tools to meet present and future needs.

Members of the board of directors are Ronald Keene, Bud Wheeler and Howard Weber, all of Porterville.

## VISALIA ANNIVERSARY

Visalia, the oldest town in the San Joaquin valley observed its 78th year as an incorporated city this week. Visalia was incorporated as a city of the sixth class, February 27, 1874.

Farm Tribune Ads Pay.

## Public Hearing On Rural Numbering

First of two public hearings on a proposed uniform Road and House Numbering system for the unincorporated areas of Tulare county will be held March 12, 10 a.m. at 221 East Center street, Visalia, before the Tulare County Planning commission.

Base line for house and road numbers, under the proposed plan, would be established along the south and west county lines. Roads and buildings in the county would be numbered from these two lines, with each mile assigned eight road numbers and 800 house numbers.

**COMMERCIAL CHICKS**

Production of baby chicks by commercial hatcheries in California during January amounted to 8,894,000 chicks, 12 per cent more than in January of 1951, according to the California Crop and Livestock Reporting service.

The system applies only to roads and houses on the valley floor. In the mountains, roads will be named and a modified system of 800 numbers per road mile used for houses.

DR. HARRY B. WELLMAN, director of the Giannini Foundation of Agricultural Economics, said at a recent state chamber of commerce meeting in Fresno, that direct price controls should be limited mainly to periods of acute national emergencies, such as full-scale wars and severe depressions; that the present time is not one of these periods. He also said that farm price supports should be set at genuine stop-loss levels.

Imperial valley cabbage is about off the market, however, southern California producing areas are now coming in.

## Strathmore Teams Win At Avenal; PTA Elects Officers; Minister Will Arrive; Corporation Formed

By Dick Berryhill

The basketball season ended on a successful note for the teams of Strathmore high school as all teams won the final game of the season against Avenal last Thursday night. The Varsity came through with a 65 to 49 victory over the Avenal team to end the season with a record of seven wins and three defeats, which placed the Spartans second in South Shasta division standings behind Lindsay, who won eight and lost two.

The Strathmore B team also ended up in second place behind the championship Dinuba team. The Strathmore C class team won

their 10th straight league game to give them an undefeated league season.

### Agricultural Program

Last week Strathmore became one of twelve schools in the state which are participating in the agriculture teacher training program. Maynard McMahon, an animal husbandry graduate from Cal Poly will do his practice teaching at Strathmore High school this semester under the guidance of agriculture instructor Charles Solomon. It is necessary for a graduate to spend one year in training in the agriculture program before he can receive a spe-

cial credential.

### Mrs. Weldon Elected

Mrs. Lester Weldon was elected president of the Strathmore PTA at the annual Founders Day meeting last week. The history of the PTA was presented in radio broadcast form with Principal Jay Bessey as the announcer.

Past presidents appearing in the skit were Mesdames George Cole, R. E. Stark Jr., Henry Fick, Donald Wallace, and Jay Bessey.

Cameron Goode's eighth grade class presented a play entitled, "The Life of Lincoln."

Other officers elected were: Mrs. R. E. Eastlack, vice-president, Mrs. Don Butterbaugh, secretary, Mrs. Richard Lamb, treasurer.

### 4-H Meeting

The regular meeting of the Prairie Center 4-H club was held last Tuesday night at the Church of the Brethren with Marvin Awbrey, president, conducting the meeting.

Discussion was held concerning a poster contest sponsored by an implement company in Visalia.

### New Minister

Donald Baird and Merritt Anderson left early Tuesday morning by truck for Miami, Arizona, from where they will move the Rev. Luke Fritz to Strathmore where he will fill the pulpit of the St. Andrews Presbyterian church beginning next Sunday.

### Store Opens

The Wilson Drug store opened its doors to the public last Monday. James Wilson is the new proprietor and will operate the store with the aid of his wife, Francis.

### Sergeant In Korea

Sgt. Leroy Coley, whose wife, Neja Mae, lives in Strathmore, is serving on the Korean front with the 2nd Infantry Division. The division, a veteran fighting force, recently has engaged in patrol activity in the snow blanketed Korean hills. Sgt. Coley entered the Army in January 1944.

### Corporation

Application has been made by Mr. and Mrs. K. R. Clifford and Capt. A. L. Mitchell of Oakland to the Corporation Commissioner's office in Sacramento for permission to form a stock corporation in this state to promote a patent issued to them a year ago for a method and machines for making pipe from flat sheets.

WASHINGTON AND

## "SMALL BUSINESS"

By C. WILSON HARDER

Recently this writer has been widely quoted on an open letter addressed to Prime Minister Churchill of England. The letter pointed out that while America feels sympathy for the British people, they, as well as the American taxpayers, are being duped to enrich British monopolies.

Britain has no anti-trust laws, so independent British business has been steadily dying on the vine. But Washington officials continue to use American taxes to support British monopolies.

C. W. Harder

Here's a clear cut example. British interests control the supply of world tin, and the U.S., consuming 65% of all tin produced, is the world's biggest tin customer. Right after Korea, tin prices were more than doubled. To combat the gouge on American consumers, the RFC took over buying of all tin, pegging the price lower than the asking price, at \$1.12 per pound.

Since the Churchill visit the U.S. is now paying \$1.18 per pound due to a very wierd deal.

The deal requires that the U. S. furnish during 1952 1,400,000 tons of steel. The deal states "the price (on the steel) will be the controlled price of the mills making delivery". This means that OPS now works for Britain. "It's a good thing the OPS is going to work for somebody at long last", is the comment heard.

Britain, on the other hand, agrees to sell the U.S. 20,000 tons of tin at a price of \$1.18 per pound. The terms of the deal

©National Federation of Independent Business

gives British monopoly a "lead pipe cinch" on U.S. tin supplies.

In addition, if the U.S. decides more than 20,000 tons of Malaysian tin is needed in 1952, British monopoly will still gain in a fantastic use of the "heads I win, tails you lose" plan.

For the terms state that if the U.S. pays higher than \$1.18 per pound, the new higher price will be paid on tin from Britain. If the U.S. buys at a lower price, the U.S. will pay Britain the difference between the lower price on additional tin and the price of \$1.18 per pound up to the full amount of any loss Britain may incur in buying tin to supply at \$1.18 per pound.

The British will also police all U.S. tin buying.

The U.S. will not deal with private tin companies without consulting Downing Street.

Thus, monopoly is given full U.S. support. Even if a small tin producer showed up who could sell tin to the U.S. at a lower price, he would be barred from competing with monopoly.

This agreement is as foreign to the ideas of American free trade as Kremlin views on a free election. It explains the sickness of the British economy. No economy can support both a free people and monopoly.

In the meantime, the Office of Price Stabilization, better known as Office Plenty Screwy has made another great decision.

Popcorn, both popped and unpopped, is now exempt from price control. But OPS states "should inflationary tendencies develop it may restore controls." You can't be too careful these days. Uncontrolled popcorn might pop off new inflations except OPS is standing guard.
